DETAILED ACTION

Examiner Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Shelly Fussey on 06/23/04.

The application has been amended as follows:

- 1- Claims 23-25, 27-28 and 30-31, 33-38 are cancelled.
- 2- In claim 1, the term "use in the prevention and/or" in first line, the term "or separately" in line 12, and the word "for" in line 15 are deleted.
- 3- In claim 29, the term "prevention and/or" in line 1 is deleted.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest the invention as claimed in the instant application. More specifically, Radhakrishnan teaches encapsulation of the therapeutic substance in a liposome which has a precisely controlled characteristics. The liposomes whose phospholipid components contain longer and/or more saturated acyl chain moieties have longer drug-release half-lives.

On the other hand Mautone is concerned with a process for preparing lipid crystals in combination with a therapeutically active agent. the lipid crystal vehicle system can deliver about 5mg of a surface active agent combination. The lipid crystals of Mautone are non-liposomal in nature.

Rubin teaches administering a synthetic surfactant in suspension form to a patient using a jet nebulizer for 15 minutes, 3 times a day for 14 days. Rubin teaches large doses of surfactants, however the said dose is administered over a long period of time.

The instant claims are drawn to a dry powder combination of high phospholipid doses and an antiasthma drug which achieves enhanced effects of the antiasthma drug.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mina Haghighatian whose telephone number is 571-272-0615. The examiner can normally be reached on core office hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on 571-272-0602. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicant to suggest amendments to claims which would potentially place the said claims in condition for allowance and more clearly distinguishes them from prior art.
